

Together, we will invest in *Artistic Excellence*

Our ***In the City for A Global Community*** capital campaign will make it possible for us to have our very own headquarters – for the first-time in the ICC's history. This will be a place where, together, we will build upon our commitment to nurture and inspire student achievement through high-quality music education. In this state-of-the-art facility we will help children and youth discover their potential for exceptional artistry.

Currently in our 37th season, we are the only professional children's choral music program in central Indiana. We present a Concert Season of public performances and collaborate with orchestras, professional artists, and ensembles of the highest caliber. We are also a leader in the global choral and children's music education community, taking initiative in curriculum development and making extensive contributions to the body of children's choral literature through our new Publishing House.

# Developing Artistry

We encourage a sense of curiosity, imagination, creativity, and community in our singers and inspire a life-long love of music in our singers, parents, alumni, and audience members through engaging repertoire, performances, and tours.

## Our new headquarters will enable us to:

- Provide a more flexible weekly rehearsal schedule for our singers and families.
- Deliver master classes with guest clinicians for our choirs as they prepare for performances.
- Double the amount of rehearsal and classroom space.
- Host retreats, workshops, and community events for our singers and families.
- Offer new programs to meet the needs of our community.

In our new home, singers will make new friends from throughout central Indiana, encounter and appreciate cultural differences, learn to be responsible and professional, and work as part of a team to make a positive difference in the community.

# Creating Excellence

We foster artistry and strive to lead locally, nationally, and internationally while pursuing excellence in quality music education.

## Our new headquarters will enable us to:

- Create an Arts Center that will facilitate partnerships with other arts organizations from the Indianapolis area who will use the facility for rehearsals, classes, and workshops.
- Cultivate collaborations with arts and other nonprofit organizations to foster and encourage community service and engagement.
- Offer on-site, professional development experiences for music educators throughout the year.
- Utilize technology to facilitate cross-cultural experiences with other arts organizations and music educators from across the country and around the world.
